

Group 0: Uses

1. What is a use of helium?

.....
.....

2. What properties does helium have that makes it suitable for this use?

.....
.....
.....
.....

3. What is a use of neon and why is it used for this?

.....
.....

4. What properties does neon have that makes it suitable for this use?

.....
.....
.....
.....

5. What is a use of argon and why is it used for this?

.....
.....

6. What properties does argon have that makes it suitable for this use?

.....

.....

.....

.....

7. What is a use of krypton and why is it used for this?

.....

.....

8. What properties does krypton have that makes it suitable for this use?

.....

.....

.....

.....

9. Why is argon used in filament light bulbs?

.....

.....

.....

.....

10. Why is normal air not used in filament light bulbs?

.....

.....

.....
