

Test For Gases: hydrogen, oxygen, carbon dioxide, chlorine & ammonia

1. What is used to test for hydrogen gas?

.....
.....

2. What is observed when testing for hydrogen gas?

.....
.....

3. What is used to test for oxygen gas?

.....
.....

4. What is observed when testing for oxygen gas?

.....
.....

5. What is used to test for carbon dioxide gas?

.....
.....

6. What is observed when testing for carbon dioxide gas?

.....
.....

7. What is used to test for chlorine gas?

.....
.....

8. What is observed when testing for chlorine gas?

.....
.....

9. What can be used to test for ammonia gas?

.....
.....

10. What is observed when testing for ammonia gas?

.....
.....
