

What are Metallic Bonds?

1. Where are metals found in the periodic table?

.....
.....

2. How many electrons can metals have in their outer shell?

.....
.....

3. What term is used to describe the overall structure of metals?

.....
.....

4. How are metal ions arranged in metals?

.....
.....

5. What is metallic bonding?

.....
.....
.....
.....

6. Are the metal ions able to move freely in metals?

.....
.....

7. What can move freely in metals and in what direction do they move?

.....

.....

.....

.....

8. What keeps the metal ions in a fixed position?

.....

.....

.....

.....

9. Draw a labelled particle diagram to represent the giant metallic lattice structure.
